Wayne Busby inquired about fixing a washout on Peterson Road. The recent heavy rains caused damage to the road. Highway Superintendent (HS) Gary Treadway responded that there are many areas around Putnam that need to be fixed after the recent unusually heavy rains, Peterson being one. Mr. Busby brought up his monthly request for pavement on Peterson Road (group laughter). Bob Rudt asked HS Treadway if the washout in Gull Bay, near the Wilson's had been reported to him. HS Treadway responded yes he was aware, but the crew hasn't gotten there yet. Mr. Rudt asked Supervisor LaPointe about the outcome of the Link Way culvert he had raised issue with the prior month, Mr. Rudt produced photographs of flooding that had recently taken place in the area. Supervisor LaPointe responded he had looked at the culvert with the Code Enforcement Officer. It's understood that the specific area in question is privately owned. The Town has no jurisdiction or authority to fix it; it is not a town road. Supervisor LaPointe stated he has spoken with the Lake George Land Conservancy, who owns the property, they said they would take a look at it. \*(After the meeting Supervisor LaPointe contacted the Lake George Land Conservancy again and spoke with Warren Rosenthal, Conservation Manager for the LGLC, who stated they were sending a contractor (Doug Wholey) to look at the area in the coming week). Joe Fisher joined the conversation asking who has the authority and jurisdiction to push the LGLC to fix the road. Councilman Kevin Hart responded that "John's already had a conversation with them; it's their ball, their property". Mr. Fisher then asked if the run off is going into the lake, who else would have jurisdiction to get the LGLC to fix the road? Mr. Rudt stated that he needs a date it will be fixed. Supervisor LaPointe responded that is an answer he can't give, and again reiterated the property is privately owned and the owner is the party responsible for the repair.

**Highway Report** (7:20)

Highway Superintendent (HS) Gary Treadway reported the first round of the roadside mowing has been completed. The second round for the County will begin August 15<sup>th</sup>. HS Treadway reported that on the recent rainy days the crew has been hauling the stock pile. HS Treadway went on to report that white goods pick up has taken place for 2017, he reported about a half dozen pickups, and felt it was still a valuable service for the community. HS Treadway reported the crew is starting the parking lot at Cummings Park, by the pavilion. Supervisor LaPointe asked if there had been any rain damage at the park. HS Treadway responded there was some damage to the road leading to the lake. Wayne Busby joined the conversation asking when the well will be drilled. Supervisor LaPointe answered that a date has not been set yet. Mr. Busby stated he'd like the well dug before he digs, to begin construction, to avoid any possible water damage from the well drilling activity.

**Planning Board Report** (7:25)

Bob Rudi reported that the Planning Board had no agenda. Four members of the board attended the meeting. The proposed changes to the Site Plan Review were not discussed by the Planning Board. A joint meeting of the Putnam Town Board and the Planning Board was scheduled for August 16, at 7p.m. The purpose of the meeting is to review the changes and make final corrections in preparation for a public hearing.
